PROFESSIONAL SUMMARY

Ambitious AI & Software Engineer with 4 years of experience specializing in Machine Learning, FastAPI, PostgreSQL

CORE SKILLS

Python, FastAPI, PostgreSQL, Docker, PyTorch, React, TypeScript, Redis, REST APIs, Git

WORK EXPERIENCE

Apex AI Labs - Senior AI Systems Engineer (2022 - Present)

- Architected enterprise agentic workflows and high-throughput microservices using FastAPI and PostgreSQL.
- Optimized database indexing and PostGIS spatial queries, decreasing search latency by 45%.
- Implemented containerized deployment pipelines using Docker.

CodeGen Solutions - Software Engineer (2020 - 2022)

- Built robust RESTful APIs with Python and integrated relational databases.
- Collaborated on front-end features using React and modern component libraries.

EDUCATION

University of Colombo - Bachelor of Science in Software Engineering (2017 - 2020)

- First Class Honors. Specialized in distributed databases and machine learning.

CERTIFICATIONS

- AWS Certified Solutions Architect
- Deep Learning Specialization (Coursera)
